TECHNICAL ANALYSIS/DESTRUCTIVE SAMPLING REQUEST

Printed Name

Position

Institution

Address & Phone

1. Description of the proposed sampling and testing procedure:

2. Purpose of this analysis:

3. If the analysis involves damage to the objects/specimens, could other, non-destructive analyses provide comparable information? Yes ☐ No ☐
If yes, specify:

4. List the specific objects/specimens requested, including catalog or other identification number, provenience, and location of sample for each object/specimen (attach a separate sheet if needed).

5. Dates objects/specimens are needed: _____ to _____.

- | | | | | |
|--|-----|--------------------------|----|--------------------------|
| 6. Will any previous treatment affect the success of the proposed analysis? | Yes | ☐ | No | ☐ |
| 7. Will the analysis involve visible damage to the objects/specimens? | Yes | ☐ | No | ☐ |
| 8. Will the analysis result in chemical or other changes to the object/specimens? | Yes | ☐ | No | ☐ |
| 9. Will the sampling or analysis alter the object/specimens in such a way as to affect the outcome of future analyses? | Yes | ☐ | No | ☐ |
- If yes, how?

10. Will the objects/specimens be sampled? Yes ☐ No ☐

If yes, provide justification and details:

Who will take the sample? _____

What is the size/weight of the samples requested? _____

Will the sampling be done at the Peabody Museum? Yes ☐ No ☐

If no, where will the sampling take place? _____

11. Where will the analyses be performed?

Institution _____

Address _____

Contact: _____ Telephone: _____

- | | | | | |
|--|-----|--------------------------|----|--------------------------|
| 12. Will the samples be completely destroyed? | Yes | ☐ | No | ☐ |
| Can the samples be reused? | Yes | ☐ | No | ☐ |
| Will the returned samples require special storage? | Yes | ☐ | No | ☐ |

If yes, specify: _____

13. Is material being requested from other institutions? Yes ☐ No ☐
If so, from which?

14. Place and date of publication of results and testing, if known, or plans for publication:
